GENERAL INFORMATION/DESCRIPTION:

Household consists of MO, OV 4 yo m and 2 yo f and PP.

MO is using crack and marijuana. MO started using crack soon after leaving CPS supervision. MO has several male friends in and out of the residence.

On 8/23/2009, GMO visited the residence. PP is now living at the residence.

The house smelled of marijuana. MO's clothes smelled of crack. GMO was in one room out of sight of PP. SB went into the room where PP was located. PP grabbed SB by the arm, then put his hands on her breasts and pressed SB into his legs at his crouch. GMO confronted PP and told him to keep his penis away from SB.

SB is very aggressive towards men. SB will walk up to men and try to sit on their crouch near their penis. When SB is in the bath she will grab a towel and run it between her legs in a sexual way SB's behind is red and raw. SB is allergic to powder, however there is concern that SB may have been sexually abused.

On 8/24/2009, GMO went to the residence and told MO "that man is feeling on your child." MO denied SB was being abused.

A few months ago while staying with GMO, OV started wetting the bed holding his privates. When, asked if anything happened, OV would run off and "sing a crazy song acting like he was retarded." OV never wet the bed before. OV is also withdrawn. HE was not withdrawn in the past. OV would start screaming at the top of his lungs at night holding his penis.

GMO has been hesitant to report anything due to prior experience with CPS. GMO also was hopeful MO would protect OV and SB.
